## CAREER OBJECTIVE

Aspiring Full Stack Developer with hands-on experience building MERN stack applications, including a production-level food ordering platform. Seeking an entry-level developer role to apply strong fundamentals in JavaScript, React.js, Node.js, and MongoDB to build scalable and efficient web solutions.

## TECHNICAL SKILLS

**Languages:** JavaScript, Java, Python, PHP

**Frontend:** React.js, HTML5, CSS3, Tailwind CSS

**Backend:** Node.js, Express.js

**Database:** MongoDB, MySQL

**Tools:** Git, GitHub, Postman, VS Code

**Concepts:** REST APIs, Authentication, CRUD Operations

## WORK EXPERIENCE

Industrial Trainee – MERN Stack Development

Euphoria GenX | June 2025 – Sept 2025

- Completed industrial training focused on full-stack web development using MERN stack
- Developed production-ready food ordering web application
- Worked on backend API development, database integration, and authentication
- Gained hands-on experience in version control and deployment basics

## PROJECTS

### SwadSeva – Food Ordering Web Application

- Developed full-stack food ordering system with user authentication
- Built admin interface for managing food items and tracking orders
- Implemented CRUD operations with MongoDB integration

### Swadseva Healthcare – Clinical Food Ordering Platform

- Developed healthcare-focused food ordering platform tailored for patient needs
- Designed categorized menu structure for different dietary requirements
- Implemented cart and order placement functionality
- Built admin interface for managing food listings and monitoring orders

## EDUCATION

### Bachelor of Computer Applications (BCA)

George College, MAKAUT | 2023 – 2027

Current CGPA: 7.65

## CERTIFICATIONS

MERN Stack Development – Industrial Training

Euphoria GenX | 2025
